Office Action Summary

Application No.

10/695,659

Applicant(s)

HUNTER ET AL.

Examiner

Milton Nelson, Jr.

Art Unit

3636

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-12 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☒ Claim(s) 1-12 is/are rejected.
- 7) ☐ Claim(s) ____ is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on ____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. ____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Information Disclosure Statement

The information referred to in Applicant's information disclosure statement filed March 18, 2004 has been considered.

Specification

Applicant is required to update the status of the copending application on page 1 of the specification.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(c) he has abandoned the invention.

(d) the invention was first patented or caused to be patented, or was the subject of an inventor's certificate, by the applicant or his legal representatives or assigns in a foreign country prior to the date of the application for patent in this country on an application for patent or inventor's certificate filed more than twelve months before the filing of the application in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent

Art Unit: 3636

granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

(f) he did not himself invent the subject matter sought to be patented.

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed, or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed, or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

Claims 1 and 4-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Lankenau (711981). Note the first sheet of material (A), removable section (B), passage (A³ or a'), third passage (a), fourth passage (another section a), first passage (A³ or a'), second passage (another section A³ or a'). Also, note that the subject matter of claims 6 and 7 carry no patentable weight, as the restraining device has not been positively claimed.

Art Unit: 3636

Claims 8 and 10-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Lankenau (711981). Note the first sheet of material (A), removable section (B), first perforated area (a'), second perforated area (another section a'), the first and second perforated areas each forming a line (note Figure 1), third perforated area (a), and fourth perforated area (another section a). Regarding claim 11, note that Figure 2 shows each of the first and second perforated areas as crosses (a as it crosses a').

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lankenau (711981) in view of UK (2049758).

Lankenau shows all claimed features of the instant invention with the exception of the means for securing the cover to an underlying seat structure (claim 2), an adhesive strip secured to the back side of the first sheet of material (claim 3).

UK (2049758) teaches the concept of providing a seat cover with a means (8) for securing the cover to an underlying seat structure, wherein the means is an adhesive strip secured to the back side of the sheet of material forming the cover.

Art Unit: 3636

It would have been obvious to one having ordinary skill in the pertinent art at the time of the instant invention to modify Lankenau in view of the teachings of UK (2049758) by adding the means for securing the cover to an underlying seat structure (claim 2), wherein the means is an adhesive strip secured to the back side of the first sheet of material (claim 3). Adding the means for securing, and in particular an adhesive strip, provides conventional and inexpensive means for enhancing securement of the cover to a seating assembly.

Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Lankenau (711981) in view of UK (2049758).

Lankenau shows all claimed features of the instant invention with the exception of an adhesive strip secured to the back side of the first sheet of material.

UK (2049758) teaches the concept of providing a seat cover with a means (8) for securing the cover to an underlying seat structure, wherein the means is an adhesive strip secured to the back side of the sheet of material forming the cover.

It would have been obvious to one having ordinary skill in the pertinent art at the time of the instant invention to modify Lankenau in view of the teachings of UK (2049758) by adding an adhesive strip secured to the back side of the first sheet of material. Adding an adhesive strip, provides conventional and inexpensive means for enhancing securement of the cover to a seating assembly.

Conclusion
